

SUFOG

NUMBER 97 AND 98

NOVEMBER / DECEMBER 1998

E.MAIL ADDRESS : SOUTHAMPTON@SUFOG.FREESERVE.CO.UK

A TRIP TO BLACKPOOL.

To visit this unique exhibition is a must for anyone visiting Blackpool.

From the time you enter past the grey alien in the main door, to the staircase, with its edges lit with lights, to the top floor & the first exhibit, which is, 'The Roswell Crash', both the big saucer on its side and the alien crew lying outside, including one inside, which can be seen through the tear in the craft.

Then moving on to the many show cases, depicting aliens that have been seen over the years... (pg. 2)

The Christmas Spirit of 1998..

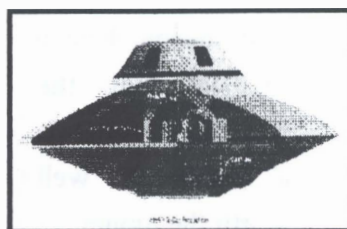

By the time this newsletter lands on your doors step, Christmas will of been and gone and the New Year will herald a new sense of expectencey... Will Labour be kicked out of office.. Will president Clinton be no more.. Or will ET finally

SUFOG
25 WESTON GROVE RD
WOOLSTON
SOUTHAMPTON
HAMPSHIRE
SO19 9EE

make a personal appearance... Certainly, 1999 see's a very exciting year ahead for SUFOG, with a number of group

meetings and sky watches planned, plus our 1999 Conference, of which, tickets are available as of the 1st of January for this major event. Ticket prices are £12 for the day, so hurry and order your tickets soon, as there are only a limited number available in advance, with only a very few being made available on the day at the door... Also, I have planned a couple of speakers in 1999 including Lionel Beer of BUFORA and local author Bob Price

(UFO's over Hampshire and the Isle of Wight) to give us a talk on their

relevant subject areas. Also, I hope to plan a trip to a local observatory in the new year, which will be advertised for the Summer and will be in the Southampton area. So 1999 watch out...!!!

The future of SUFOG is in your hands.. !!!

SUFOG Becomes Internet Friendly in 1999

That is right folks, when you receive this newsletter, the Southampton UFO Group will be Internet friendly and will have access to the world wide WEB. Also, I hope to have our own WEB page, so that we can reach the masses out there, and also, hopefully, we will have our own E.Mail address, so you can send me letters etc. over the Internet at the touch of a button. Hope-

fully, on our WEB page, we will advertise the group, a contact name and address as well as news, views, sighting up-dates and much much more. So, if you have any ideas about our WEB page, then please by all means, drop me a line at the editorial address above or why not con-

tact me at my E.Mail address and drop me a line. I see 1999 as a major step forward for SUFOG and who knows what awaits us in the year 2000, contact with ET... well who knows! So, if anyone out there knows of a good WebSite or two, then please forward the details on to me and I will take a look at it.....

including Chu-pacabra. Information & newspaper cuttings are nicely framed on the walls all the way round. Also T.V footage is shown all the time.

There are of course many other things, including books, magazines & video's to buy.

In closing, I have to say that the whole exhibition is a must & well worth the money.

**' THE TRUTH IS
IN THERE !**

Mrs D.Reynolds,
Lordshill,
Southampton.
(Group Member).

SUFOG 1998 QUESTIONNAIRE.

Well, so much for that as they say... The idea of this was to find out what group members wanted from the group & thus giving us a way ahead in formulating meetings, group events etc. Well, out of the 49 that I posted (costing the group £10), I had a total of 19 replies. So, where do we go from here. Well, the group will continue as it has done for the past 6 or 7 years as it has done. So, if anyone 'complains' about group activities etc. then all I can say is 'You had your chances'.... There were one or two points to come from the questionnaires that will be looked into & I may well instigate one or two ideas from those of you who returned your questionnaire. So, there you are, no change at SUFOG for 1999 & as for the year 2000, who knows...

- 30.10.96 : Crawley & District Observer : No UFOs says MP.
31.10.96 : Derby Evening Telegraph : Alien goings on in space.
31.10.96 : Slough Windsor & Eton Express : Edith's X-File.
31.10.96 : Stornoway Gazette : UFO riddle No 2.

22.10.96 : Best : His hobby's out of this world.

Abducted By Angels ?

An Alternative Viewpoint...

(Brian Allan - Strange Phenomena Investigations (Scotland))

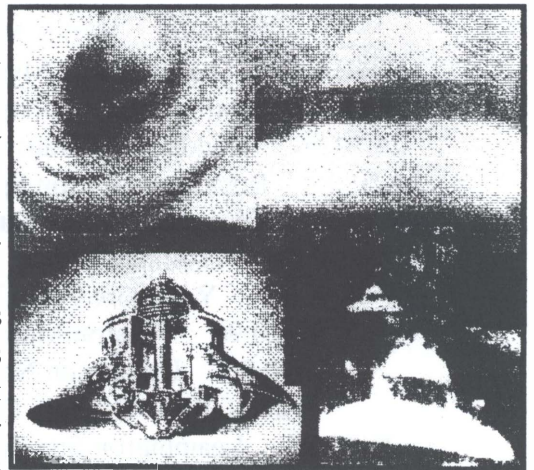

While recently researching an article with regards to the phenomena of angelic visions it became increasingly clear that there were some very obvious comparisons to be made between ancient confrontations between human beings and angels and contemporary reports of contact between human beings and alien entities. It also seemed a reasonable hypothesis that the miracles carried out by Christ himself could possibly be the application of an advanced technology. The main difficulty facing the researcher is attempting to separate fact from fiction, truth from myth.

There have been various translations of the bible and its various texts, each one bearing the influences of the cultures and times that produced them. It is worth remembering that when a translation was carried out it would normally be under the patronage of some very wealthy man or institution. This would customarily be a king, and of course since monarchies were absolute, then the patron (depending on his own beliefs) could have more than little influence on the outcome of the translation.

Be that as it may, there are some really amazing examples of where comparisons can be made, if you are prepared to accept that biblical stories aren't just fables and allegories but may contain a germ of truth.

This truth may have become distorted and diluted over the years, but nevertheless, truth just the same.

European FT Initiative.

Calling all UFO Research Groups in both the United Kingdom and on the European Mainland. An attempt to track the black triangular-shaped UFO across Europe during the years 1993 - 1997 is underway. Based upon Project FT's database which contains some 7,000 sighting reports, additional FT reports are required which will be added to the database and which may possibly reveal just where the FT has its entrance / exit windows.

All contributors will receive a report of our findings.

Malcolm Robinson - A Meeting with Albert Budden. (Part 2....).

This pollution, he maintains, (from microwave transmitters and other high charge frequency transmitters), has a direct result on each and every one of us on this planet. I must admit, listening to Albert in our home was deeply fascinating and the information that he presented was indeed mind-blowing and graphic in its entirety. Albert had brought along some video tapes which showed the 'Hutchinson Effect'. This concerns a chap who has in his home, various weird and wonderful apparati which have an incredible effect on various items and materials. This effect can make these items and materials fly about the room and sometimes even disappear !! All features of ghost and poltergeist effects. Albert went on to discuss with us all about his theories, his theories which he believes answer all our concerns with not only the UFO enigma, but the Spiritual aspect as well.

Basically Albert argues that electromagnetic stress can trigger visionary messages telling the individual that their health is under threat from electromagnetic fields. Albert's theories are too much to go into here, suffice it to say, that one may order a copy of Albert's latest book on this phenomenon by writing to, **'Blandford Books, Wellington House, 125 Strand, London, England, WC2R 0BB, price £16.99 (Hbk).** Look out for a full review of this book on our Book Review web site fairly soon. Albert is a fascinating man, and I strongly recommend that you go out and buy his book, you may not like what you read, but one thing's for sure, it will certainly make you think !.

INFORMATION is for the people & not for filing cabinets !!!

SUFOG IS ON THE INTERNET...

Well folks it has finally happened, SUFOG has entered the world of the Internet and we are now on line..... !!!!! So if anyone wants to contact us, then not only can you write to us, but you can also E.Mail us. SUFOG has a number of plans up its sleeves you might say, and we / I hope to be creating our own Web site in the new year, so watch out ... You have been warned... The Internet will enable SUFOG to open up the world and eventually, we will be able to E.Mail you your Newsletter, if you an E.Mail address, to save my poor tongue from licking down all those stamps every other month... If you want to E.Mail SUFOG with news, views events etc, then here is your opportunity to do so. So, after all that, here is our E.Mail address.....

SOUTHAMPTON@SUFOG.FREESERVE.CO.UK

If you do not get a speedy reply to your E.Mail, then do not panic, as I will only be logging onto the NET 2 times a week for a max. of 1 hour per-session and then on the weekends for a couple of hours each day. So, there you are... If you are interested in receiving your Newsletter via the Internet (Please remember that the newsletter is produced on Micro Soft Publisher 97), then drop me a line and I can have a go at sending you a copy ... Mind you, where it will go to is another question, but we all must learn sometime.... Says he....

Abducted by Angels ?... Cont....From Page 4...

This plus the obvious view that people who witnessed these events and wrote about them had no concept whatsoever of anything other than magic and miracle to explain what they were seeing. There simply was no type of technology extant at that time which could offer an alternative explanation to the events that they were witnessing, so, in effect they were witnessing a miracle.

The Old Testament is full of such examples, the story of the creation being a prime example. The story of Adam and Eve, if you think about it, is genetic engineering by any other name. Adam is created from a handful of dust (biological material), and Eve from Adam's rib (cloning), certainly some sort of genetic manipulation. The feeding of the 5,000 with the loaves and fishes, some sort of replicator ?, the Manna which fell from heaven, an aircraft dropping food' ? The plagues that best Egypt, biological warfare ?, Lot's wife turning to a pillar of salt after looking back at the destruction of Sodom and Gomorra, perhaps calcified by the detonation of a thermonuclear device ? Ezekiel's fiery chariot in the sky, a U.F.O ?, the list goes on.

Even the New Testament has its fair share of examples, the raising of Lazarus, the blind being made to see again, yes, miracles at the time, but now ?..... fairly orthodox medical procedures, nothing particularly miraculous about them. Even the resurrection can be looked at in this respect. Christ's body is missing from the tomb, and on entering, the women find an angel inside, the angel tells them not to worry, everything's fine, the physical body of Christ has risen to heaven. What are we looking at here ?, was this an angel or was this a paramedic ?, was it describing a medical procedure, a 'medivac', a resuscitation perhaps ?. Was this 'angel' cleaning up after the grievously injured Christ had been removed for hospitalisation ?. 'Angels' turn up all over the place, God's messengers ?, our interface with the almighty ?, a spiritual army ?, guardians ?, in truth fulfilling just about any function you can think of, rather like a permanent shield to prevent you dealing with the almighty yourself, why ?

Down through history angels have been harbingers of doom and destruction, wielders of the sword of righteousness, God's enforcers. It's odd to think about it in this respect, but whenever God needed some dirty work done, up to and including murder, then it is his angels that are used. So we can see that the concept of the angelic entity is a being of peace and love is at best ambivalent, or could it be that they are misinterpretations of events that the people of the time could not explain simply because they didn't have the vocabulary ?

(Part 2 in next edition....)

***NEWSPAPER REVIEWS BY
ERNIE SEARS ESQ.***

In very short supply this time around as most of us have noticed ! However, right near the middle of December I have accumulated a small handful which might be of interest... and so long as Steve doesn't label them "Ye Olde" this time please ! 'cos they are right up to date as always...

THE DAILY TELEGRAPH for an unknown date in November / December carried no UFO news but related the discovery of another new planet which 'could carry life'. As big as Jupiter, so scientists and astronomers using a new telescope in Chile, in the constellation of Eridanus, big enough to cause a "wobble" to the star unknown as Gileise 86.

THE DAILY TELEGRAPH on another similar date also carried news of ANOTHER ditto.. twice as big as Earth, the very small cutting "lost" I am afraid.

THE TIMES of December 9th.. Yes.. The Times !.. which has always had a reputation for serious stuff, carried TWO items.. one a half page on the current Mars probe launched, to probe the atmosphere of the Red Planet, with NASA launching a pair of such every two years. British participation in this first one, which will take a year to cover the distance, includes instrumentation built at Oxford. Seems these scientists KNOW there has been water on Mars, leaving erosion marks etc. Usual determination of scientists to discover this water proof as 'life cannot exist without it' Who says ? ANYONE ever heard of those pesky "aliens" or whatever they are using liquid unless you count the "gel" stuff.. craft don't seem to have kitchens, sinks, toilets, taps !

THE TIMES of the same date opened my old peepers next with a column by Uri Geller called "Weird World" and concerned... wait for it !.. papers now being released through a website by a multi billionaire which are claimed to concern a crashed

craft and bodies in 1947 ! This generous lad, Jim Firmage, is setting up Project Kairos to 'prepare humanity to meet the extra terrestrials who imparted wisdom to our ancestors'. The website will be in the form of a book which one can 'navigate'. Firmage says that fibre optics and micro circuitry has been developed from the crashed craft.. well, we've heard that sort of rumour before haven't we ? Still.. who knows ? Jim is certainly putting his money where his mouth is !

Just finish up this lacklustre.. or is it ?.. collection my Daily Telegraph for the 19th December carries a four page article on the still unsolved mystery of the so-called "Star of Bethlehem" which leaves various scientists, astronomers, and astrologers etc. failing to agree on this apparent phenomena which in any case leaves the birth of Jesus a far different date than the 25th December which has been usurped from a pagan festival for the sake of convenience.. general opinion in the said article being actually September 15th. This matters little to most of us ! We have been aware of this discrepancy for ages ! What interests ME and doubt others... letters please !... is the lack of a theory that that "STAR" which "moved" and "hovered" and cast beams down according to religious legend could have been something more technologically advanced. Since it all bears a remarkable resemblance to various and many abductees and percipients descriptions, as well as my own recent discoveries.. see earlier paragraph.. and, whether you believe it or not, various "channelling !" and / or communications from whoever or whatever "they" are, that they are responsible for installing such things as religion... and therefor "gods".. far back in prehistory, since, mankind needed "rules" or "commandments" to keep him or her or us in line ! Lord knows... aptly !... that this has seemingly failed to do such and control our warlike and violent and avaricious tendencies. Who would deny this ? As I write, Iraq is being attacked, not for the first time ! Since there seems no other way to solve the continuing threat to world peace of another such who does not recognise the truth and who... just like many others.. misuses "religion" for his own greed for power by force.

MAGAZINE REVIEWS BY ERNIE SEARS.

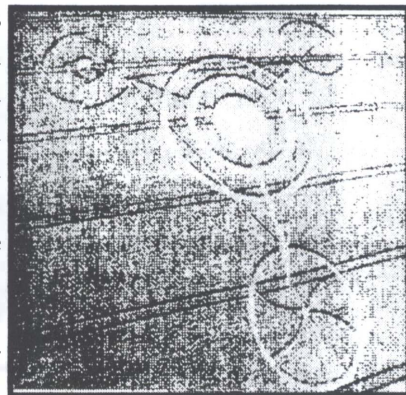

UFO Magazine is the Los Angeles issue and there's two.. a dramatic November one devoted to the "Children of Roswell" .. well worth study since we get up to date anecdotes as to what parents told their offsprings etc.. Roswell isn't going to lie down yet ! Startling French videos featured on a 1998 flying triangle flap. Those much vaunted aircraft "transponders" by the way don't operate on radar if they don't want to be seen ! Richard Hall says cover-ups and conspiracies DO exist ... natch ! Decembers issue features alien abduction and the cover asks 'is anybody safe ?' and 'in here is your worst nightmare' ! Alien / human bonding procedures.. Kevin McClure titled Alien Charade (thought for one minute that 'is anybody safe' headline referred to this arch and seemingly paranoid debunker.. now where is safe from him !).. Abductions in Africa... Sedge Masters uncovers part 2 of his ex CIA experiences.. etc etc. Both magazines from 5455 Centinela Avenue, Los Angeles, CA90066, Fax (310) 827 6965. \$4.95.

DOWN TO EARTH is the title of the ELUFON magazine issued by the Essex and London UFO Network and an attractive colour cover too in the November issue. A 43 page glossy... that Silbury Hill black triangle.. The Sheffield Incident.. and one at Swindon with the UFO cigar shaped and portholed.. dated 1969/70 so was it an experimental a/c ? .. That Sheffield (1997) incident well covered, page after page... John Hanson's Dawning or Reality article whets the appetite for his forthcoming book... around the world section.. astronomical surprises.. 'moon awash with water' !.. an excellent magazine, well produced, £2.95 bi-monthly from Roy Hale, (ELUFON), 21 Sparrow Green, Bull Lane, Dagenham, Essex. RM10 7EU.

OVNI is a special 16 page November / December issue from my old mate Omar Fowler.. we shared those triangles and 'manta rays' etc in 1977-78 over our respective Surrey and Hampshire counties ! Leeds Conference highlights.. interesting triangle and "pursuit" by

If the collection of magazines this issue look bigger 'taint so.. our editor Steve collected enough for two months this time.. meanwhile the UFO reports are at a minimum.. will it continue ?

two Tornadoes witnessed Sept 98... Omar reviews David M.Jacobs new and sensational book "The Threat"... 'near hysteria' says Omar but what is "reality"... interview with alleged lady abductee who was "taken" in 1996... anomalous lights over the Yorkshire Wolds 1995... a Guatemalan citizen "travels in spaceship claim, date not given.. gigantic triangle over Hull 1997, estimated length seven tenths of a mile !... those WW2 foo fighters again... magazine £2 bi-monthly from 94 the Circle, Sinfen, Derby. DE24 9H.

LUFOS stands for the London UFO Studies magazine and the autumn issue No 23 in easy to read black on white (none of that white on white and variegated colours beloved by some !).. Chairman Roy Lake at the helm, Jilian Sherwood interviews Bob Dean on life, the black helicopters, US Government conspiracy.. no change there.. eight pages too ! Remote Viewing article, 3 pages.. sightings reports.. and interesting feature article on odd places where they store disused steam engines and other railway items... so they say ! Underground entrances, CCTV cameras, new lighting, and sites protected under the Official Secrets Act ! Huh ! Book reviews, personalities, etc. Magazine from 10a Tudor Road, Barking, Essex, IG11 9RX. No price stated.

IUFOPRA hails from Ireland and there's two, the normal magazine of the Irish UFO and Paranormal Research Association, and a special, Cover says "Final report : UFO Wave over Ireland and England March 30/31st 1993"... at £3 a copy, while the summer 98 IUFOPRA Journal doesn't have any price and covers the general UFO scene, Area 51, the USA based Lightcraft, a theoretical look at the "out there" possibilities, includes an alleged Nostradamus prophecy

CD Rom Review :**The UFO Files :****The Woolwich****UFO Research****Group...**

If you want a UFO CD Rom, then this is a must for the UFO Researcher.. (See Ad at rear of Newsletter).. This great package contains over 3,000 files of UFO related material covering Area 51, Abductions, NASA, Crop Circles, 100MB of 'classic' Real Audio files, 100MB of images (BMP, JPEG, GIF) and a whole lot more. I have spent hours wading through the material contained on this CD, and I am still going.... and I must say, I give it a great 10 out of 10 for contents and presentation (Greys sunning themselves !!!). This is a must for UFO researchers and is well priced for its contents.

10 / 10

of ET arriving 5th/6th August 1998 ! Really ? So what happened ? that amazing Fife incident, mutilations, Area 51 again, atomic theory, etc. Both worth a long look at, esp. the Special which features a letter from

one N. Pope of the MoD detailing sighting reports of 'the wave of UFO sightings' from Yorkshire to the West Country, 31st March 1993 ! Contact IUFOGRA at Po Box 3070, Whitehall, Dublin 9, Ireland.

SKYWATCHERS is the nicely printed mag. of the Cornwall UFO Research Group... issue 22, and contains a varied selection of items, astronomical article by Sue Herbert... sightings reports from the West Country (one location was "Prazen-Beeble"!) as well as Staffordshire, Israel ! Roy Dutton's article, "UFO's : The Hidden Truth", says those crop circles 'definitely linked to global UFO activity'.. Roy knows his technical stuff so if he says so.... ! Former astronaut Ed Mitchell reaffirms ET visiting Earth is real ! slags off the USA Government too ! South Americans Paul Damon writes on "The Raising of Consciousness".. See that Strieber article last issue ? CUFORG magazine costs £12 a year for bi-monthly issues, includes free issues and admission reduced to their monthly meetings, from 24 Carrine Road, Truro, Cornwall, TR1 3XB.

Northern UFO News and a familiar pocket sized mag from Jenny Randles, who needs no introduction.. always an interesting cover design by Roy Sandbach and Jenny, this October issue has an abduction scenario ! Don't think Jenny is trying to tell us something ! An in depth Editorial on the perils of advertising and fees etc and Nick Pope ! The 36 year old

Alex Birch "UFO photo" (I remember sussing out five craft in formation as "stuck on the window" stuff and eventually Alex "admitted" such... the story takes a new & surprising twist currently !.. watch out for "UFO Revelation", new book by Tim Matthews due out about now, says Jenny, we will ! long piece on the dangers of hypnosis which will no doubt please Kevin McClure !.. once again I ask what about those of us that recall actual incidents even if years later and in flashes... incidents pre-dating UFOlogy, in my case the 1930's ? However, Jenny's approval of the BUFORA and others scheme for a witness orientated conference as per the 1992 MIT ditto heartens me.. does she recall I mooted this to her AGES ago, long before MIT ? Not sure if a ban on the general public is good... surely open discussion with "serious and dedicated UFOlogists" would fetch out others from the woodwork ? "We are not alone" can be adrenaline to "victims" if that is what we are !.. Noted sceptic Susan Blackmore to give up psychic research ?.. Hyneks Project Blue Book paperback ("The Hynek UFO Report") which graced my shelves for many years is reissued.. no abductions, t h e y weren't "in" then !.. but

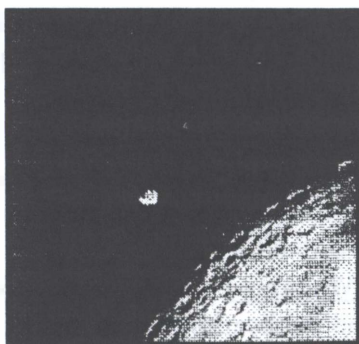

good solid UFO's all the way. Other NUFON news includes triangle sightings in the Manchester area, book reviews, Roswell autopsy footage update, etc. Good little magazine.. try Jenny at 1 Hallsteads Close, Dove Holes,

Buxton, High Peak, Derbyshire, SK17 8BS.. no subs details this time but a bargain if I recall right !

AWARENESS for Summer '98 is the magazine for Contact International UFO Research for Oxfordshire and comes nicely produced and handy size.. boasts Lord Clancarty for Founder President ! Editor Geoffrey Ambler writes an interesting editorial, with details of his own 'indeterminate lights' experience.. disappointing he says.. but opens up new areas with his "alien communication channels".. join the club, Geoff, but be wary ! Yeah, you DO question your sanity Geoff, sometimes ! More debate on Rendlesham Forest.. night photography experiences... "reports"... Martian Cydonia comparisons.. sighting summaries for '96, '98, from Cornwall, Oxford etc... good article in the meteor showers... you DO have to check those astronomers, the last big lot were 16 hours adrift from forecasts ! Update on the crop circles. Intriguing trip to Rendlesham Forest ! Video footage of UFO's ? Book reviews include the "shock" of David M.Jacobs PhD's "The Threat". Magazine subs £9 for four issues, Po Box 23, Wheatley, Oxon., OX33 1FL.

APRA (Anomalous Phenomena Research Agency) is a small "first issue" eight pager, for November '98.. Oxford based.... sightings, crop circles,

Rendlesham (See above), item on the FBI's own website on "anomalous phenomena" !, C O N -

TAINS 1600 UFOM PAGES ! APRA comes from c/o Box 135, Didcot, OX11 9YA.. looks to be free so far.. worth taking.

"THE CALLER" is an exchange only magazine .. glad to learn that at last !.. August issue.. interesting "notice board" asks for attractive ladies to pose.. clothed for photographic modelling ! Definitely UFO stuff here ! Editorial by Kevin comments of the dire lack of sightings etc.. Channel Islands sky-watches mode. Surfing the Net. Local investigations. Letters page good but all asking questions ! You do ! That Leonids meteor shower. Next issue looks fascinating ! Are we being programmed ? Now THERE's a question ! Alan Alford's new book. Next issue October so where is it Steve ? 14 John Le Quesne Close, St Clements, Jersey, JE2 6NJ.

"THE CALLER" for October / November (You had it all the time Ernie.. Ed) (SEE ABOVE !) is here too thank you Steve ! Disappointing tho' cos. those planned features are missing so we are left with Jersey's library books review, excellent, "Phantoms of the Sky" by David Clarke and Andy Roberts, "Aliens, the Real Story" by Jenny Randles, and Nicholas Redfern's "A Covert Agenda" which gets, deservedly, certainly a read again one, as my well used hardback proves ! Letters to the Editor, includes answer to a question on the Clinton scandal and a UFO cover-up combined ! Figures ! If he lied.. and he did !.. about his extra marital affairs then THINK how the lid has been kept on the awesome subject of UFO's ! Alien Toys article is just that... the commercial aspect of what you can buy ! Anyone who thinks "they" have gone away should look in the novelty and toy shops and garages as I have seen 'em ! Cosmic Research by Ian Gould... evidence for ETs visiting earth. 3 pages ! Jerseys Skywatch dates and that is that !

Faster Than Light is the magazine, nicely coloured and produced, by HUFOS, the Hull UFO Society, with the Editor Chris Evers looking for an

Another Great CD Rom review.

This CD, like the previously reviewed CD, is packed with UFO images, photographs, & is another CD Rom that I feel should be added to your CD Rom collection. This CD, is produced by The East Kent Monitoring Group (Run by my friend Jerry Anderson) and again, what with its great cover and presentation, I would give this another 10 / 10..

If you want a copy of this great CD, then please, contact the editor, as I have a couple of copies left that are available for purchase from me. I strongly recommend this CD and the CD reviewed on page 10.

Why not let me know of any CD Roms available.

The Internet **Night...**

Having had the Internet connected, it is certainly wonderful what you can look for.. I spent Saturday evening 19th Dec. 'Surfing' the Net... I visited a number of Web Sites and drew up a listing of those I intend to visit on a more regular basis. For Instance, I visited Paul Vigay's crop circle site and obtained full listings of crop circles found all over the world for 1997 & 1998... **10/10** for this site. Then, I decided to visit one or two UFO group sites and to be honest, non of those visited did anything for me at all... Then I visited UFOINFO which is a **10/10** site plus an extra one... You can download newsletters from this site that are updated every week and are very interesting. Cont. pg. 13

alleged landing in 1950-52 for, Gods sake, in the Hull area ! Prime material for that thirty year rule ? Elaine Darlington's abduction story.. she is the West Country lady by the way. The Welsh triangle.. the geographical kind.. part 2. The Illustrated Solar System. A '96 triangle sighting. World Wide News. Quest International video gets a so so review for below standards production but not content. he Dart Plane.. 2 hours to Oz ? "Are We Alone" article by Dr M.Marton-Smith.. course not.. its only our ego that denies the evidence ! Thoughtful stuff, though. Mag from 24 Chestnut (sic) Avenue, Queens Road, Hull, HU5 2RH at £1.20.. Monthly ? Watch the spelling. Chris, needs a good proof reader (Don't we all .. Ed !!)..

ENIGMA.. now there's a coincidence, is Paul Vigay's Enigma extinct in Hampshire 'cos. here's another.. have the UFO Monitors East Kent group checked ? Cover sports that cutaway of Adamski type scoutship. Punchy Editorial from Jerry Anderson.. yeah, right on man ! Another Rendlesham exploration.. or was it the same one as detailed hitherto ? Dramatic, even scary ! "Contact of the 5th Kind" book review, authors Philip Imbrogno and Marianne Horrison... 'the silent invasion has already started' quote.. abductees Imbrogno has tested, 95% have rare blood group B-negative ! So... X-Files movie reviewed. 101 possible explanations for UFOs by Sean Jones, part one. No comment ! Radar article. Magazine £1.50 from "Ivydene", Wingham Well Road, Bramling, Canterbury, Kent, CT3 1NN. No mention of periodicity. Well printed, however.

PHENOMENA (Scotland) issue 3.. should that be "Strange Phenomena Scotland" ?.. its the fancy cover printing ! Hey ! Under the control of Brian Allan and Billy Devlin.. name to conjure with, Malcolm Robinson having shifted Londonwards and Malc. gets

some stick in the manner of so doing ! Still... ain't it life, Malc ? Nice pocket sized product, maybe wider coverage of the paranormal than hitherto, i.e. : angels, near death experiences as well as UFO's.. why not ? Brian Allen on allsorts... psychic entities as Arbroath, Faces in the Fire at Lanzie, the Real Life X-Files Conference at Dundee successful speakers-wise but poor attendance. Pregnant Prophetess Joanna Southcott.. from the 1800's.. book reviews.. group reviews... that over-hyped "Ghostbusters" logo sums it up... hope the mag can keep up the very wide coverage but then, there are connections. Try 41 Keith Street, Kincardine, Scotland, FK10 2JN. £15 for five issues, £2 single.

WFIU .. Wales Federation of Independent UFOlogists Sept to DEc issue.. Groups, magazines, organisations, etc, subject of Margaret Fry's opening page. Useful, detailed. Supportive comments for abductees and hypnotherapy. Margarets painful sounding dicey spine and jamming spinal discs means semi or total retirement.. get some HEALING my dear ! It can WORK.. I KNOW ! Pages of encounters, sightings, very good. Colin Ridyard Anglesey reports and allied history of MoD and other such responses hard hitting and believable. Keep up the good work ! West ales coverage and comments by Richard Alexander. Splendidly clearly printed and put together mag, try Margaret Fry at Frys Croft, Llangerny, Conwy, LL22. No price but no matter. Other areas have their own co-ordinators too.

UFO Magazine .. Britain's only newstand publication it says and how true ! The leader, no doubt, survival of the fittest ! This November / December issue runs the whole gamut of Editor Graham Birdsall's enthusiasm... ET's and the Vatican, Michael

Cont. from page 12.. and will be visited by me on a regular once a week basis. Then I went for the big one and went to NASA's site in America, and wow.. some great stuff here which I am still analysing.. I also visited Southampton Football Clubs site... Not many UFO's but a few strange looking creatures called footballers though !! Then, I went to the Sightings page (Tv program on Cable Tv), which, again is a 10/10 site with up-to-date information, radio programs, video footage and a whole host of other information.. Over the next week or so, I intend to take another look at a web site or two including SPI England and Turner Internat.

Cont. on page 15...

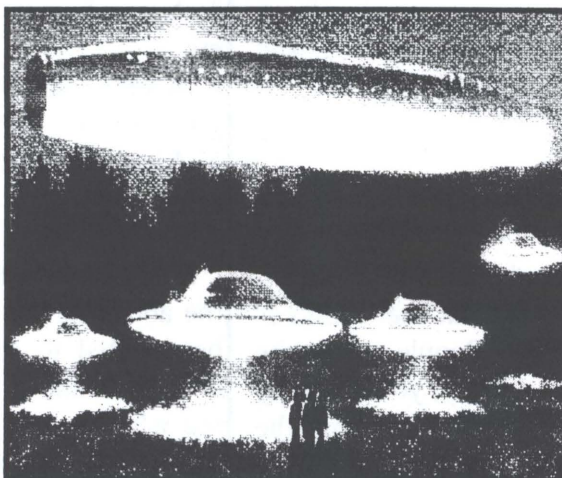

Heseman's amazing UFO footage... that Conference at Leeds in detail, The House of Commons, questions and answers... Alien Implants.. UFO's in Antarctica... the Alien Threat.. Australian UFO "FLEET" copies Mexico ? pictures too !.. this magazine is packed and well worth the £2.25 cover price. Bookstalls and shops.

Phew ! up at 6.45 am on a Saturday to get the rest of the reviews finished for dear old Steve (Not so much of the old... Young Ed !!).. now 8.15 am and on my second cup of coffee, time for the finale and my porridge !

Left two pocket sized mags until last ! £2 each and a waste of time and money, theirs, mine, yours too ? Planet Prozac is the culprit's name.. enough to warn one. Steve did !.. try "School bus found on the Moon" cover, or "Bloody Lips, The Knife, and me" poetry or the stories, fiction, I hope !.. well, as I said not worth the time.. and with such a SERIOUS SUBJECT "out there" if the producers had the many and obvious professionalism to print this we could do with both in the current loss of good magazines that get to grips with that "other Reality".

Course, if you have a way out sense of humour.. even mine is beyond this one !.. It's OK, or if you aren't really concerned that YOUR / OUR planet is going to hell and back in a basket then for gods sake it won't matter one jot ! You COULD send a copy to the MoD or your MP and see what replies you get !

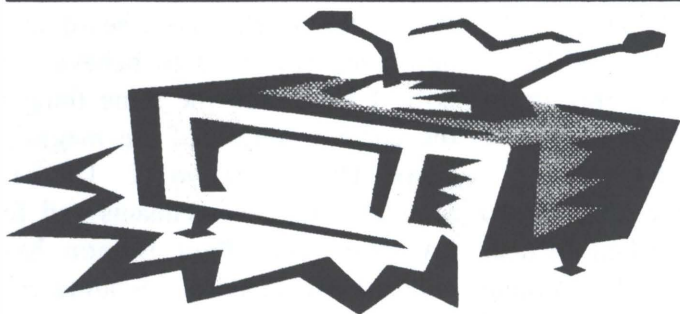

A Bit Of Gossip That's Hard To Swallow.... !!!

When UFOlogy jungle drums start to rumble, you know something dramatic is about to hit the subject. Well, a few weeks ago, I heard some news that was hard to believe, and now, I have read the same thing in the current edition of the magazine *Faster Than Light No 12*.. UFO researcher Matthew Williams and fellow researcher Paul Damon have confessed to hoaxing / creating crop circles in 1996, 97 and 98.... !!! In the next edition (No 13) Chris Evers plans to reveal more about this incredible revelation.. Why... Why if this is so, Did Matthew do this ? In so doing, he has destroyed his integrity by being involved in such events. Mind you, was it for scientific reasons, to see what reactions would be received and then in a few years publish a paper on the findings.. Who knows.. only Matthew knows the answer, and he must in the next few months come out and explain his actions to all. Mind you, if he does say he has created this formation, that formation etc... then the farmers union will be after his blood let alone the farmers themselves. This has certainly clouded my views about Matthew and his research and we must ask ourselves the question - Where does this leave Matthew now and what will happen to him in the future with regards to his investigations, lectures and television appearances ? Who do we believe ? The truth is out there and only Matthew and Paul Damon know the real truth.. So stand up and be counted boys.. UFOlogy and Crop Circle researcher(s) expect it of you.. I understand also that this story is available via the Internet and I will try and find out more about this incredible story in time for the next edition.....

Watch This Space.....

TELEVISION & RADIO REVIEWS :

30.10.98 - Interview with an alien : From the feedback that I have received about this program everyone enjoyed its screening. The program concerned an alleged interview with an alien that had been smuggled out of Area 51...

I must admit I thoroughly enjoyed the program and was well worth viewing. Like so many pieces of film and photographs, the image was not well defined and the alien

seemed to have some kind of 'fit', which looked authentic and had 'medical' men running to its assistance. A good item, but one to be very wary of in the future...

8.11.98 - Heartbeat - UFO's..... This program about a Yorkshire community police bobby featured the strange death of a cyclist and a sighting of a UFO in the area. UFO's seem to making appearances in all kinds of programs and this is the 2nd time a 'UFO' has been featured in this program....

9.11.98 - Earthscan Special Report (Part 1) ... Not much to say about this program (Part 1 or 2), as it contained items that have already been shown on the program previously. A little talk of UFO's and the weirder side of UFO sightings and encounters. I may well show it a a future meeting, but you may find this program a bit of a bore....

10.11.98 - Earthscan Special Report (Part 2)

18.11.98 - Michael Cole Show (I was abducted by aliens).... This program was along the lines of such great chat shows as the Jerry Springer Show, Oprah Winfrey... People sat out the front and being made to look like idiots. Okay, you had your professionals such as John E. Mack there to support the witnesses, but, it was really a total farcical program like all of

these audience participation programs. The witnesses must of felt such fools, sitting in front of millions of people and being degraded on television. I am personally not in favour of these types of programs. Yes, fine if there is no audience, but forget the audience questions.. lets get to talk to the witnesses properly....

One final point.. Did anyone manage to video the following as your editor missed them :

1. 7 Nov... National Geographical Channel... I.F.O's...
2. 27 Nov .. UK Horizons .. The Case of the UFO's.
3. 4 Dec .. Sightings ... Alien Abductions...
4. 16 Dec ... West Country Tv .. The Secret KJB UFO Files...
5. 19 Dec ... UK Horizons ... Out of this world..

Equipment Appeal...

In 1999, I want to build up some more equipment for the group and if anyone can help with the following ...

1. A modern slide projector - manual/automatic.
2. A metal camera case to store equipment in for sky watches in.
3. Any old maps of Hampshire i.e. O/S etc..
4. A telescope would be of use to the group on sky watches.
5. A camcorder that is in good working order.

If you know where we can get any of the above i.e. to buy, borrow or could be donated to the group, then please drop me a line so I can follow it up and see what we can arrange. If you think of anything else, then drop me a line...

Cont. from page 13...

concerning the Russian video footage of a crashed UFO.

1999 Program...

In 1999, I am planning to get the investigators course off the ground as I feel we do need a number of (max 4) investigators, who can report on sightings and be able to go to see a witness at literally at the drop of a hat. Also, I am looking at making a visit to a local astronomical telescope at Toot Hill, near Totton, and combining it with a sky watch. This will be a ticket only event, and you will have to make your own way there, but I am sure that we can possibly organise some kind of transport for those interested.

CD Rom listing for the keen UFOlogist...

1. Sightings UFOPEdia (Taken from The cable channel Program 'Sightings'... This is an excellent CD containing material covering UFO sightings, human mutilations, cattle mutilations and crop circles. This is just the tip of the iceberg and well worth adding to your collection... 10 / 10...
2. UFO by softkey is a UFO sighting database, which, is a very good reference tool of sightings dating back to the late 1800's. A great little program that may be difficult to obtain... 7 / 10...
3. Encounters (Top Secret) - The UFO Phenomenon... This is a basic CD with text files and a few pictures that are just the 'ordinary' photos we have come to know... 6 / 10...
4. Incident at Roswell (originally screened on Ch4 Tv)... What more can be said about the Roswell footage that has not been already said... The video is far better, but, the CD is still interesting... 5 / 10...
5. Beyond Roswell.. This was reviewed in a previous newsletter (SUFOG NO. 95 / 96) and not a lot more can be said about this CD... 6 / 10....
6. UFO Phenomenon CD Rom... See page 11 for review... 10 / 10....
7. The UFO Files.... See page 10 for review... 10 / 10...

MALCOLM ROBINSON LECTURE ON THE 8.11.98

Over the past year or so, we have had a number of excellent speakers, including Roy Lake and Matthew Williams. So I thought, Malcolm Robinson would be an excellent speaker to ask along to our November afternoon meeting. Good idea, shame about the turnout... !! Malcolm and Judith Jafar arrived in time to enjoy a Sunday lunch with me and the family. After picking up our sound & video engineer, we arrived at the hall and were set up in plenty of time. The doors opened at 2.30pm and we sat back waiting for the crush of people. By 3.15 p.m., we had only 14 people in the hall.. !! what a disaster.. Many of you have asked for Malcolm to talk to the group, yet these people never turned up..... Anyway, we carried on and Malcolm gave what I can only say, was an excellent lecture including video footage and slides (The only thing was that the projector decided to eat 2 of

the slides...!!!). Malcolm talked of recent sightings in Scotland & his involvement in UFOlogy over the years. He even produced the trousers that were worn by forestry worker Bob Taylor, who was 'attacked' by a UFO back in 1979... Physical proof of an alien encounter... !!!

I thoroughly enjoyed Malcolm's lecture & I have invited Malcolm to talk at our 1999 Mini Conference....

So, where did this leave us.. Well, after paying out for Malcolm's expenses, the hall, tea and coffee, the whole day cost the group : £150 and we sold only 14 tickets, giving the group a grand total of a loss of £52, which of course has to come from group funds. With the losses so far, we have paid out of group funds some £150 where people have not attended lectures. So, in 1999, I have planned a couple of speakers, and if these events are not supported, then our Sunday afternoon speaker events will be a thing of the past in

the year 2000, and you only have yourselves to blame. These speakers are arranged for you.....

The time will soon come that we will not be able to carry on with our Sunday afternoon meetings purely because we will run out of speakers to attend them. As I have said, I have 3 speakers lined up for 1999, but who we will be able to get in the 2000, well we will have to wait and see.. Any ideas as to whom we ask... ??

SUFOG VIDEO'S FOR SALE....

ROY LAKE (UFOLOGY IN GENERAL) : £ 8.00. (3HR Tape)

PAUL VIGAY (CROP CIRCLES) : £ 8.00. (3HR Tape)

**MATTHEW WILLIAMS (RUDLOW MANOR & UNDERGROUND BASES) : £ 10.00.
(4HR Tape)**

MALCOLM ROBINSON (SCOTTISH UFO CASES) : £ 8.00. (3HR Tape)
(All the above prices include postage & packaging)

**International
Skywatch Week-
end
15th November
98.**

Unfortunately we did not take part in this event, but I had a letter from the organisers 'International UFO Research Network', Co-ordinated by Russell Kellet.

It appears that there were 2 sightings, 15th Nov at 12.44 am Frettenham, Norfolk - 'A bright Light' and at 1am on the Saturday, Pontefract, S. Yorkshire, of a 'Disc that was light pink in colour'...

In all, 30 groups were contacted concerning this event, and only 5 groups took part.

Hopefully, if this event happens again in 1999, SUFOG will be able to take a more active part and organise a sky watch.

AN ODD SKYWATCH OR TWO

On the 17th of October, group members Bill Smith, Tom Trubridge, Andy Phillips, and myself decided on a sky watch at Portsdown Hill, overlooking Portsmouth. We arrived at 8pm and Tom arrived with his Bedford van at 9pm. Suddenly, a thought, no milk !! (Your editor had forgotten it !!!). So me and Bill headed off into Portsmouth on a quest to find a pint of milk. When we entered Portsmouth, suddenly from a shop window '5' 'Greys' were waving at us. One had a glowing object in his hand and the others seemed to be waving at us... Phew... just ornate light stands... When we arrived back at the main car park on Portsdown Hill, we were not alone. Parked by Tom's van, was... A police car... 'Can we take your names

& addresses lads'... After giving our details (The WPC did not believe Bill Smith & had to ask him twice for his name... But we did not split on ET...).. When the WPC asked me my occupation.. 'I work at Police HQ Winchester & I am a Special Constable'... She then said.. 'Are any of you known to the police... !!! What... I nearly said something.... But she meant criminally known.. Anyway, when they left, we got back to studying the sky.. Then all of a sudden a second police car arrived (I suppose to back-up the previous police car that had left 5 minutes prior to their arrival, just in case we were mass murderers and all had to be arrested...!!!). Anyway, The evening turned out to be a sky watchers dream. First of all we saw a bright light going over at some speed & was caught on video by Tom.. Sighting 1... Then, as the night was get-

ting decidedly colder at around 02.45hrs, we decided to carry on until around 3am. Then suddenly, I saw a bright orange light flare up in the sky & moving from left to right. We trained our binoculars onto this object as it dimmed down to a white light. Tom went & grabbed his camera & started to video the object. Unfortunately, he missed the first part, and only shows a bright light than changes into a small flashing light. Bill & Tom started to have a heated discussion about what we had just seen & recorded on video.

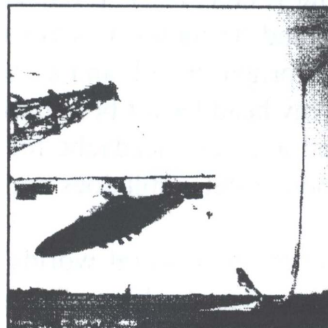

(I will show this at our January meeting if I can get the video off of Tom).

A LIGHT OR TWO ON FILM

SKY WATCH ON 28.11.98.

This was again attended by Myself, Tom, Bill & Andy.. We decided to go back to Portsdown Hill to see if we could see the same object as sighted on the 17.10.98. We sat parked in the same car park & at around 10.30 moved on and eventually found another secluded spot &

set up camp. We stayed out until around 4 am, but we saw nothing of note and the light did not re-appear, so we still do not know what it was.

FUTURE SKY WATCHES.

If you want to come on a skywatch, then please note the dates in the newsletter and it is up to **you** to contact **ME** if you want to come. The location will be decided the night before. So, ring me on the day or the evening before if you want to take part....

UFO and ET Encounters in 'Astral Realms' by Brian James. (Part 2).

One recurring 'dream' from early childhood, and indeed one that carried on through to Peter's mid-twenties, was what might now be termed as part of the classic abduction scenario. This is where he was consciously aware of being in a room of bright light, lying on his back, unable to move, with a deep pulsing noise / feeling coming from behind. Breathing was also difficult, and perhaps was best likened to having a mask over the nose and mouth. This dream sometimes occurred two or three times a week, but it was always very similar. Sometimes the room would look slightly different, but the one common factor was the appearance in the room of beings - of varying heights, but all with enlarged heads, and they were all grey ! This recurring dream did finally stop, but then was superseded with the other encounters with other beings, but by now [Peter] had free will in these encounters, and was not in any sense subjected to examination.

During his childhood years, Peter had frequent 'dreams' of what he would now term as alien beings - many of these were before the advent of the modern sci-fi type of TV show, which really began in this country with *Dr Who*. No one else in Peter's family had any interest in space of sci-fi, so where did these images come from ? Peter even now can recall quite clearly looking out of his bedroom window at night, and seeing various lights and 'flying saucers'. It should be emphasised that Peter's 'dreams' of this type when a child not uncommon, especially today, but back in the early 1960s, sci-fi images didn't exist in such numbers in all sorts of mediums.

It has been perhaps in the past six years that Peter has had more conscious recollection of 'dreams' and astral travels, and this conscious awareness of other realms is increasing at an accelerating rate, so much so that in the past couple of years, the real memories of astral travels and encounters are being 'held' in conscious memory as soon as they occur. This acceleration seems to have happened after one very peculiar 'dream', in which Peter clearly recalls sitting on the settee at home, reading a book on sci-fi TV shows, while the TV was playing in the corner of the room, with Lenny Henry doing a comedy sketch, and the time was obviously during a late summer evening. For no good reason, [Peter] felt compelled to look out of the window, and when he did so a shining metallic domed disc was sitting in sky above the houses opposite, glinting in the evening sun. An intense blue-white beam of light came out of the dome of the craft, and came straight through the window, and hit [Peter] in the forehead, in his Third Eye - the pain was truly intense, and he thinks he screamed. The next thing Peter recalls is sitting bolt-upright in bed, and as he clutched his head, his first thoughts were "... my head hasn't been blown off..." Peter was drenched in sweat, and had a severe headache for the next two days. Just what was all that about ? Peter still does not know, and I am not going to speculate here.

What of UFO-type experiences in astral worlds ? Peter has related seeing a red ball of light seen over Avebury. This type of energy form

Event Planner For 1999.

**Jan : 15th Sky Watch.
17th Group Meeting.**

Feb : 19th Sky Watch.

Mar : 12th Sky Watch.

**Apr : 14th Group Meeting.
16th Sky Watch.**

**May : 21st Sky Watch.
23rd Group Meeting**

**June : 26th Sky Watch.
27th Group Meeting**

July : 31st Sky Watch.

**Sept : 11th Sky Watch.
12th Group Meeting.**

**Oct : 2nd Sky Watch.
24th - 1 Day Mini
Conference.**

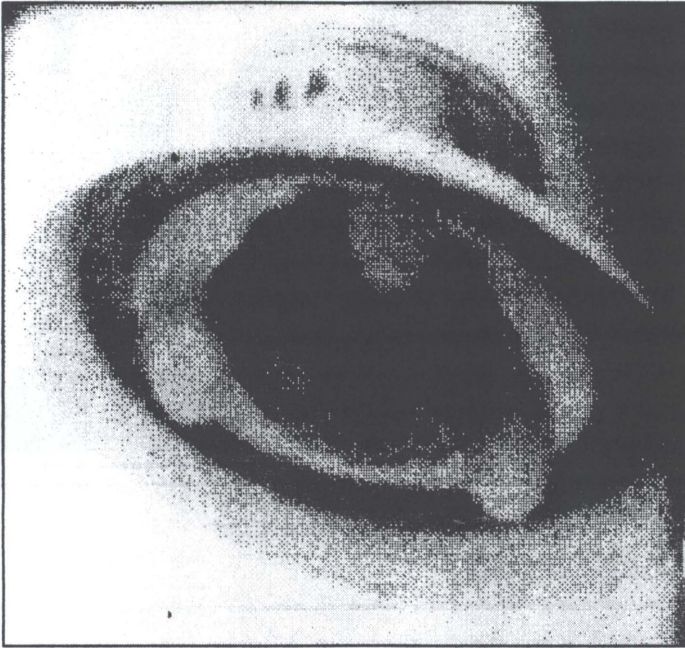

Nov : 20th Sky Watch.

**Dec : 11th Sky Watch.
12th Christmas
Meeting (In a Pub)**

**(Contact Editor before
above dates to confirm
Meeting / Sky Watch is still
on as Sky Watch dates are
subject to change at the last
minute subject to weather &
other commitments not fore-
seen in 1998 by the editor).**

has been seen very regularly now. [Peter] saw four of these in an early morning at one of the Oxfordshire iron-age hillforts. These four balls of energy were darting and almost dancing around above the fort, but occasionally they would stop and 'hover' though while stationary they tended to bob up and down. [Peter] was also aware that on this occasion he was not in a physical form, and he too was seeing everything as if he too were slowly bobbing up and down, though he never seemed to take notice of whether he was also a pulsating ball of energy in this form. After this event, [Peter] was convinced that the four other forms were almost playing, and kept stopping to see if he would join them, and he now regrets not taking up the apparent invitation.

On two other occasions [Peter] has seen these pulsating balls of energy creating crop circles, and another very probable creation - the 'Beltane Ring' near Silbury Hill. This formation was found on May 4th, although [Peter] saw it as apparent creation while travelling at Avebury in the early hours on May 2nd - did he shift in time, or was the circle somehow 'primed' to appear some hours later ? It should be

noted that this is the only crop that as yet matches the location that [Peter] has astrally witnesses. For the simpler type of crop formation, it seems that only two of these energy forms are needed. As they circle in the air above a field, a vortex of violet, almost ultra-violet energy is formed between them, and this descends into the crop, which then falls into its pre-determined pattern. As this vortex dissipates, a ball of golden light emerges at the centre of the formation, and this then just explodes outwards, and a golden ring of energy then sweeps across the field and it too dissipates - there are still small bolts of blue light crackling through the flattened crop, but the formation is now complete. A silly-sounding aspect of this is that [Peter] is so busy watching the formation occur, he simply forgets to watch where the red balls of energy go !

It is time to mention some of the aspects of ET encounters. [Peter] has been clearly aware of being on spaceships with various other beings. These ships are obviously physical and solid, but [Peter] is sure he was not there physically, so was his presence in an astral world more easily definable as another dimension ? [Peter] is also very aware of flying some of these craft - flight control is done by the simple power of thought, the ship goes where the 'pilot' wills it, though [Peter] is not sure how these ships are propelled. The beings themselves range from five or six different humanoid types, to two reptilian species, and several different types of 'greys'. The greys seem to fall into quite distinct categories. These are the taller types, with smaller heads, but these taller ones are the living beings. The smaller type, with the familiar huge head - the archetypal 'Grey', are, as most of suspect, genetically cloned and created drones, and these seem to be used as 'workers' by all the other living types of being. All of these other species seem to be working together, the ships have mixed crews, and without trying to trivialise the subject, it doesn't seem so different to the scenes in sci-fi shows such as *Babylon 5*, or the *Star Trek* spin off series such as *Next Generation* or *Deep Space 9*. Perhaps those closeness to sci-fi imagery is a considerable note of caution to be kept in mind in all Peter's experiences ?

Peter stresses it should be emphasised that in no sense is he there as an old-style 'contactee', with all manner of dire warnings on mankind's future being given to him. If anything, he seems to be sitting in on briefings, all done telepathically. Visual images are 'beamed' at him, rather like looking at a rapid piece of video footage, the process seems something akin to a flash download of computer information. The information being given is rarely comprehensible at the time, and very little seems to refer to Peter's current physical life. It seems as if the other beings are trying to get Peter to 'remember' other worlds and other lives, and the information is more like accumulated knowledge, and perhaps the best term for

the whole process would be 'enlightenment'.

Peter does have some of these memories triggered when in this physical world, particularly when with like-minded people, and especially fellow spiritual visitors. Channelling has also triggered memories, none more so than the presence of 'children' on the ships. At first Peter thought they were 'abducted' human children. He was quite disturbed when the realisation came that 'children' are the hybrid results of the long suspected alien / human breeding programme. He was more disturbed to be told that he was to play a role in the future of these hybrid children - the full implications of this have yet to unfold.

I hope that you will appreciate that the above just scratches the surface of experiences for one person. There is a vast range of material still to be uncovered. If any of you readers have any thoughts that relate to the above, or perhaps you have experiences that would confirm, or indeed deny, Peter's accounts, then we would like to hear from you.

Nick Pope : Government Mole or Just an ordinary guy...

PRESS RELEASE FROM NICK REDFERN 2 **DECEMBER 1998.**

On 19 November 1998, Lord Hill-Norton inquired how many files the Ministry of Defence (as opposed to the Public Records Office) currently held that related to the UFO issue.

In his response, Lord Gilbert advised Hill Norton that 76 files were held by the MoD and that they dated from 1985 to the present day. Gilbert further revealed that all of those files originated with the Secretariat of the Air Staff - the office that was the former home to both Nick Pope and Kerry Philpott - and that they dealt with the following issues : 'policy' ; 'correspondence' ; 'alleged sightings' ; 'Parliamentary business' ; 'media issues' ; and 'answerphone messages'.

Of course, this is precisely the sort of material that one would expect to see on file with the Secretariat of the Air Staff. But what of the additional files that exist and that originate with, for example, DI55 and its associated offices within the Defence Intelligence Staff - not to mention RAF Rudloe Manor and the Provost and Security Services ?

For his part, Gilbert conceded that 'some files' on UFOs may be held by other MoD 'divisions or establishments' ; however, the MoD's truly astonishing stance as of November 1998 is that absolutely none of this additional material can be identified or provided. Why not ? A lack of funds ! In other words, it's the same old story : Sec(AS)2a's material is ok for discussion. But anything else ? Sorry, no can do. And the British Government doesn't have a covert agenda ? Don't make me laugh.....

Woolwich UFO Research Group

UFO FILES

PC CD-ROM 1999 EDITION

CONTENTS:-

Over 3000 files of UFO related material!

Abductions, Area 51, NASA, SETI, Crop Circles, Roswell, Interviews, Cydonia, Black Technology, Current & Historical Sightings, MIB. etc

YOU NAME IT, WE'VE GOT IT!

NEW FOR 1999 ON CD-ROM!

- A) 100MB of 'classic' Real Audio Files**
- B) 100MB of images (BMP, JPEG, GIF)**
- C) An easy to use viewer program for virtually
Instant access to topics & key words!**

FORMAT:-

Most files are .txt & should run on any PC,

16-bit Soundcard required for Real Audio Files.

WINDOWS 3.11/'95 (WINDOWS 98 RECOMMENDED)

FULLY TESTED FOR 3 MONTHS NATIONWIDE!

Material up-dated weekly!

ONLY TWELVE POUNDS! (INC P&P)!

PAYABLE TO MR M.BELL

Woolwich UFO Research Group

P.O.BOX 3775

LONDON SE18 3QR

TEL/FAX: 0181 316 4690
